

# Get things done better, faster and together.

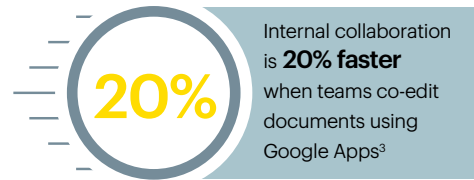

Google Apps for Work, collaborating with Sprint provides your company the tools it needs to get work done efficiently so you can achieve optimized productivity with no downtime, no limits<sup>1</sup>.

## What is it?

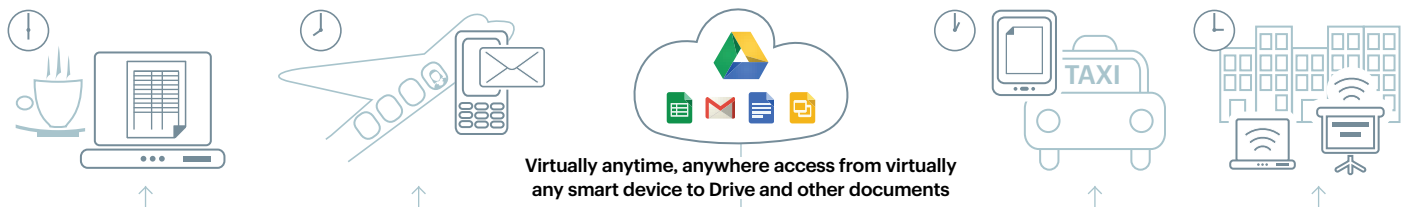

Google Apps is a suite of cloud-based business apps that allow employees to connect and collaborate in real time and on the move by storing, sharing and editing documents in order to work more effectively.

## What's included?<sup>2</sup>

-  **Drive** - Store up to 30GB of data for free or upgrade to unlimited storage
-  **Gmail** - Guarantee email uptime at 99.9%
-  **Calendar** - Schedule meeting times that work for everyone
-  **Docs** - Create and share content files with virtually anyone, anywhere
-  **Sheets** - Create data charts from new or existing spreadsheets
-  **Slides** - Develop presentations collaboratively and embed videos
-  **Hangouts** - Host or join a "face-to-face" meeting from any device and location
-  **Sites** - Launch an intranet for your company or design a portal for customers

## How does it work?

## Why use it?

### Business Efficiency

- Run your entire business from virtually any location with virtually any smart device
- Sit in on an impromptu video meeting using Hangouts

### Effective Collaboration

- Coordinate teammates' calendars to easily share events that work for everyone
- Draft a proposal and make edits together simultaneously

### Secure Mobility

- Keep company data safe by managing mobile devices from Google Admin console
- Create your own business rules for employee devices
